

**Use:**

As an element of a general ventilation system providing air flow through partitions.

Fitting:

On rectangular profile air ducts and in walls. Fitted using visible screws in holes pressed in the front frame or without visible screws using press-in fixture of the additional RM fixing frame.

Construction:

Front frame and blades made of pressed aluminium profiles. Blades horizontally fixed in order to block visibility. Set with a covering frame M on demand.

Material:

Aluminium, alloy 6063.

Surface finish:

Naturally anodized aluminium or powder coat coloured according to RAL catalogue.

Certificates:

Hygiene certificate: HK/B/1705/02/2008
